Questions?	Contact Cara, symposium logistics coordinator caradwsn@gmail.com

Support provided by

Learn about exciting pollinator research and ask some specialists

Biology, conservation & stewardship for bees in Canada - Cory Sheffield, Royal Saskatchewan Museum, Regina, SK

Biology, conservation and stewardship for butterflies in Canada – John Acorn, University of Alberta, Edmonton
Pollination and plant reproduction - Jana Vamosi, University of Calgary, AB

Biology, conservation & stewardship for moths in Canada - Greg Pohl, Canadian Forest Service, Edmonton, AB

Biology, conservation & stewardship for flies in Canada - Andrew Young, Carleton University, Ottawa, ON

Global bee diversity & conservation - Laurence Packer, York University, Toronto, ON

Pesticides and honeybee health – Nadia Tsvetkov, York University, Toronto, ON

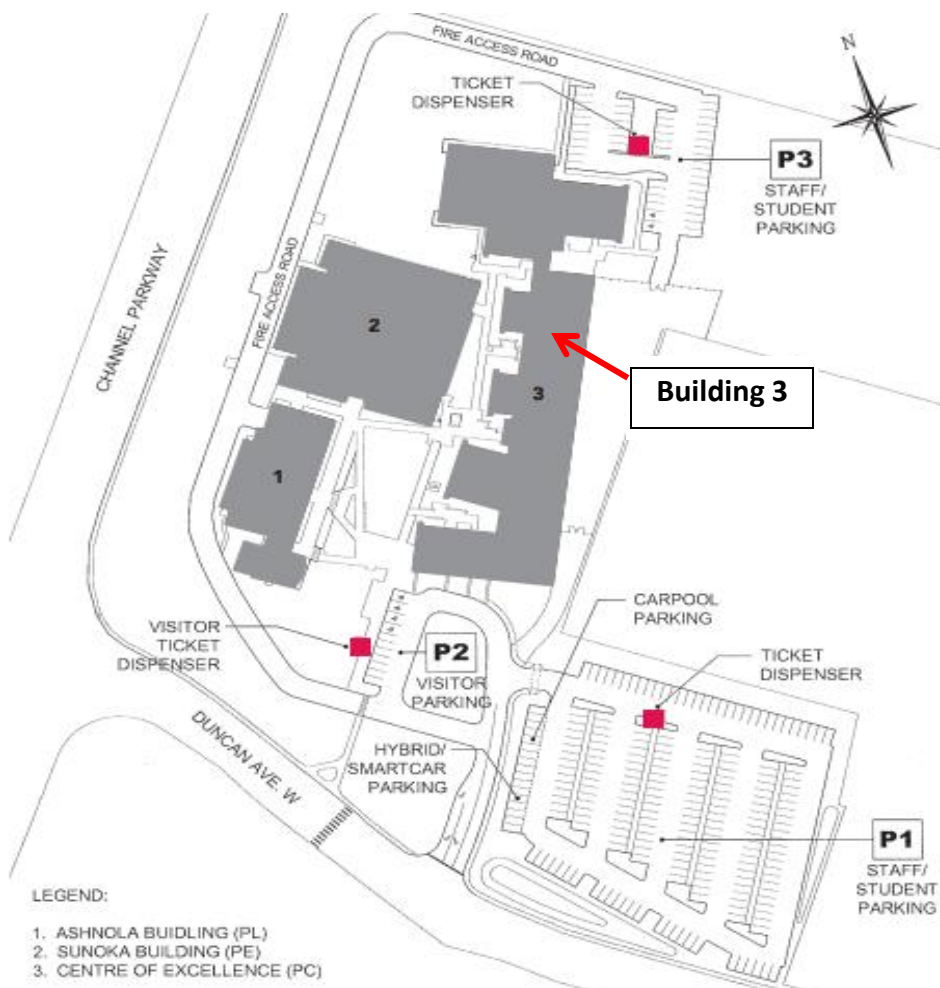

Honeybee genetics and breeding a better honeybee – Brock Harpur, York University, Toronto, ON

Stewardship for pollinators in the Okanagan and Similkameen valleys - Jennifer Heron, BC Ministry of Environment, Vancouver, BC

The federal General Status Program of Canada, Wild Species 2015 – TBA

Canadian crop pollination and wild flower and rare plant pollination TBA

**Okanagan College, Penticton Campus, 586 Duncan Avenue West
Room PC 113, Centre of Excellence Building (Building 3 on map below)**

Have you been up to some interesting pollinator research, outreach or stewardship?

We invite people to submit posters for display at the symposium. Please email your poster title and abstract to Cara caradwsn@gmail.com by March 10, 2016.

Western Bumblebee (*Bombus occidentalis occidentalis*), assessed as Endangered by the Committee on the Status of Endangered Wildlife in Canada and recorded from the Okanagan and Similkameen valleys.
